

2019 Summer 15-CEC Certificate Program

Spiritually-Informed Psychotherapies

Dates: The 5-week summer term starts June 12th and ends July 17th with classes scheduled from 9:00am – 12:00pm on Wednesday mornings (no classes held on July 3rd).

Location: The Trinity Parish Center – 56 Trinity Place, New York, NY 10006.

The Psychotherapy & Spirituality Institute is offering a summertime continuing clinical education certificate program in Spiritually-Informed Psychotherapies. This program gives qualified professionals providing mental health or pastoral care services an opportunity to undertake structured and sustained study of key intersections between spiritual wisdom and psychological insight.

In a seminar setting, students will consider a wide array of topics relevant to practice – including intimacy, family life, diversity, addictions, conflict, grief, and trauma – incorporating spiritual perspectives into each area. A brief final integrative paper will allow students to apply what they have learned to their own work.

This program is meant to enrich professionals' clinical practice and deepen their understanding of how spiritual dynamics figure in holistic care. 15 CEC's are available to LMSWs, LCSWs, LMFTs, and LMHCs as well as for OASAS certified, in NY State. Graduates of the summer certificate program will become PSI alumni and program affiliates.

Learning objectives

- ❖ Developing a range of spiritual assessments and interventions
- ❖ Understanding spiritual perspectives on distinct clinical concerns like intimacy and addiction
- ❖ Expanding spiritual resources available to clinicians, both personally and professionally

Early bird rate is \$425.00 if you apply by May 1st
Tuition is \$495.00

Rates for PSI affiliates and full-time students are available to those who are eligible.
For more information on the program, costs, and how to apply, visit www.psinyc.org.

Application Deadline is June 5th, 2019
